Commissioner for Patents

David Davis  
Primary Examiner  
Art Unit: 2626

1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is, as stated by applicant on page 6 in the third full paragraph, the fact that the "object of *Miyashita* is to make a label on a disk readable while the disk is rotating at high speed . . . The only way to read the label while it is rotating is to 'freeze' it or make it appear to be stationary with no movement." Also, as stated in the third paragraph on page 6, the applied prior art provides no support "to make the cover 'translucent' since that property would obscure the text on the label". The definition of translucent is based on the publication provide in the remarks received September 7, 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David D. Davis whose telephone number is 571-272-7572. The examiner can normally be reached on Monday thru Friday between 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dwayne D. Bost can be reached on 571-272-7023. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
